ASSTRA
FERTILIZERS LOGISTICS

AN EXTENSION OF YOUR BUSINESS

AsstrA Fertilizer Logistics offers the following fertilizer delivery solutions customized to client requirements and unique cargo features:

Container transportation, including that involving specialized tank containers;

Railway transportation, including that involving specialized rolling stock;

Direct railway tariff settlement using AsstrA's own codes;

Road transport, including that involving specialized tanks;

Sea freight on ships with capacities of up to 70,000 tons;

Use of the AsstrA legal entity for the purchase of fertilizers and sulfur in favor of a trader;

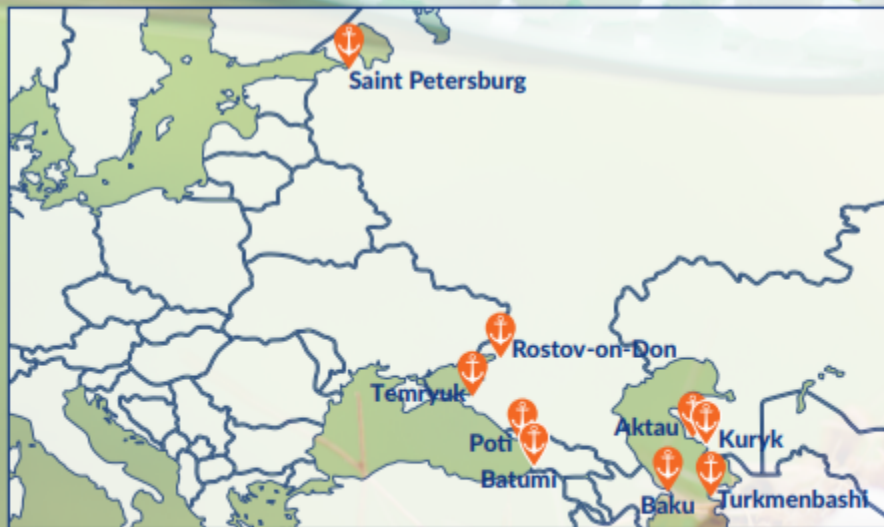

Customs clearance;

Survey at port terminals.

Asstra Fertilizer Logistics customers receive a full range of mineral fertilizer transportation and logistics services.

One of our core competences is the transshipment of bulk fertilizers in the ports of Russia, the CIS, Europe, Georgia, Azerbaijan, and Turkmenistan.
